JUDD'S MEDICATED LIQUID CUTICLE

Invented June, 1849 by
ORANGE JUDD, CHEMIST.

This recently invented compound is probably the best preparation yet discovered for dressing Burns, Scalds, Cuts, Bruises and all kinds of Wounds. Also, for Sore Nipples a remedy unequaled. A very little of the Liquid placed anywhere upon the surface of the body, immediately forms a thin, firm coating, very similar to the natural Cuticle, or outer skin, which may be freely washed with water or soap without the least injury to the wound. It is an admirable substitute for TRANSPARENT COURT PLASTER, without any of its inconveniences. It is warranted as to allay pain immediately and more perfectly; for sale by H. H. YOUNG

MEDICINES FOR THE PEOPLE!

DR. S. A. WEAVER'S
CANKER AND SALT RHEUM SYRUP,
CANKER CURE AND CERATE.

THESE preparations are scientific productions of a regularly educated physician (who is now extensively engaged in the practice of his profession.) They have become deservedly popular in all sections of the country, where they have been introduced, from the fact that they have never failed to effect a cure where they have been used according to direction.

THE CANKER AND SALT RHEUM SYRUP is an article differing entirely from Sarsaparilla or Dock Syrups, or any other preparation ever offered to the public. It can be positively relied on for the effectual cure of all Scrofulous Humors, Erysipelas, Salt Rheum, Canker in the Mouth, Stomach or Bowels, Female weaknesses, and all humors arising from an impure state of the blood. It is said it is a complete renovator, eradicating disease and restoring to healthy action every part of the system.

THE CERATE

In all cases of humors, and especially for Salt Rheum and Erysipelas, is a valuable accompaniment to the Syrup, as it will effectually destroy every vestige of Humor from the surface of the body which will be driven out by the use of the Syrup. It is one of the most valuable external applications ever known for Burns, Scalds, Scald Head, Old Sores, Piles, Barbers' Itch, and all other eruptions on the skin. And far surpasses all other external applications.

THE CANKER CURE

Is the desideratum so long sought for the relief and cure of certain diseases which all other preparations have failed to relieve. It is warranted a positive cure for Nursing Sore Mouths, in those cases it has never failed. Thousands have tried it, and been cured; also, for Canker in the Mouth, Stomach and Bowels, and obstinate dysentery it has effected cures after all other tried remedies had failed. For Ulcers and all diseases proceeding from canker as humors in the system this is useful and is a valuable accompaniment to the Syrup in all cases of Canker.

Neither of the above articles are genuine without the signature of S. A. WEAVER & Co., on the outside wrapper.

Manufactured at New London, Conn., by S. A. WEAVER & Co., sole proprietors, to whom all orders must be addressed.

NEWPORT,

BY CRANSTON & NORMAN,

127 Thames Street.

MONDAY MORNING, DEC. 1, 1851.

☞ Again we urge upon the Whigs of Rhode Island the great importance of attending to the Registering of all persons who, by age and residence, will be qualified to vote at the elections next year. All who desire the privilege of voting then *must* be registered in the Town Clerk's office of their respective towns by the last day of December. Be sure and register every name, even though the person is not quite twenty-one years of age at that time; if he becomes of age at any time before the last meeting of the Board of Canvassers previous to election, he can vote. We think that all must be fully aware of what is at stake, and that every thing depends upon the early and thorough manner in which the Whigs prepare for the contest. As we have before stated, our opponents are busy, and they will spare no pains or expence to rally all their force, and to appear at the polls in solid column. As Mr. George H. Browne, the locofoco leader in the House of Representatives stated in his famous Donaldson letter, money is an important element in Rhode Island politics, and that they had an abundance of it,—and that Gov. Allen, although a very *obstinate* man, would contribute liberally,—as would Gov. Lawrence, and others. Mr. Browne well knew what he was talking about, because he is in all the secrets of his party, and he was writing, he says, a confidential letter to a brother locofoco.—Therefore we are bound to believe all that Mr. Browne says,—and we consequently commend it to the consideration of the Whigs, and urge upon them to act accordingly.

We desire to see the party firmly united and we know that all the members of it who are really Whigs at heart, and who are not merely attached to the party from selfish motives,—will lay aside all personal feelings, and work with unflinching zeal to redeem the State. If this is done, we shall certainly succeed, and all our efforts will be crowned with the most abundant success.

☞ We are indebted to the Hon. Albert C. Greene for a variety of Public Documents.

☞ Our thanks are due to Messrs. Peckham & Davis, of San Francisco, for full files of California papers by the last steamer at New York.

☞ The steamship Alabama has arrived at New Orleans; her California news has not yet been recieved.

Monument to the Little Ones.—It is proposed to raise by subscription a sum of money to erect a suitable monument to the innocent little creatures that fell victims to the lamentable catastrophe at the schoolhouse in New York. It would be creditable to the feelings of our citizens if this proposal were carried out. An elegant monument of the purest Parian marble, spotless as the souls of the departed children, surmounted by a group representing the Saviour with outstreched arms welcoming some children, with his blessed words carved beneath: "Suffer little Children to come unto me, for of such is the Kingdom of Heaven." On the tablets might be inscribed the names of the departed children, and a brief account of the circumstances which hurried them from a world of care to one of bliss.

Reception of Kossuth.—The following Companies, of this city, about 140 men, commanded by Major Peckwell, will unite with the New York militia in the reception of Kossuth; the Columbia Rifles, Capt. Britzenhoffer; Jefferson Rifles, Capt. Somers; Newark Rifles, Capt. Liebe, and the Jefferson Rifles, Capt. Lomulher, of Elizabethtown. A Staff, composed of the officers of the Essex Brigade generally, will take part in the parade, and be escorted by the above named Companies. The Columbia Rifles will be the guests of the American Rifles of New York.—*Newark Daily.*

Successful Trial.—The steamer Wm. Barnet, which has several times unsuccessfully attempted to ascend the Delaware river to Lambertville has at last succeeded. It is intended to establish regular steamboat communication between that place and Easton, and the accomplishment of this now seems probable, since the rapids and falls of the river have been surmounted.

☞ A Greek maiden being asked what fortune she would bring her husband, replied—"I will bring him what gold cannot purchase—a heart unspotted and virtue without a stain."

"One vote is important," exclaims a western editor, who ran for Congress, "it once elected us to stay at home."

A WISCONSIN DEBATING CLUB.

'Gentlemen,' said the chairman, 'the question for this evening is, Which conferred the greatest benefit on man, Mr. Christopher Columbus, or Gen. George Washington?—On the affirmative, Messrs. Van Dreezer, Dusenbury, and Phenix; on the negative, Messrs. Foster, Milligan, and Sampson. Mr. Van Dreezer has the floor.'

Mr. V. the village lawyer, a smart, dapper looking man, arose, and taking a sip of water from the tin cup which was before him, did dispose and say:—

'Mr. President and Gentlemen and Ladies—I arise to advocate the affirmative of this question; that is to say, that I affirm that Mr. Columbus did a greater benefit to mankind than General Washington. In order more fully to digest the interrogatory just propounded, to enter fully into the merits of the case, I will give a brief, succint, and condensed account of Mr. Columbus's life and exploits. Sir, who was Christopher Columbus? Sir, echo answers, the greatest man of his times. Sir, Columbus was the offspring of a man of the same name, who was an indignant basket-maker in a small town called Rome, situated on the river Tigers, a stream which takes its rise in the *pyramine* mountains, and flows in a southeasterly course into the Gulf of Mexico. At an early age Columbus evinced a decided talent for the sea, and occupied the leisure hours of his infancy in perusing books of travel and works on navigation. It was while engaged in these pursuits that he inadvertantly met with the works of Robison and Cruso, and Captain Cook, and the definition he made from them was that far away over the trackless main, hitherto untroden by the foot of man, was an undiscovered country.

'As he approached to manhood, he was filled with a desire to discover that country which he so often saw in his youthful dreams; actuated by this desire, he petitioned the great Political Pope of Rome to give him three yawls and a jolly boat to carry out his design. That distinguished man at first refused, but his wife Cleopatra being pleased with the promising looks of Mr. Columbus, actuated with a magnanimity which is a carricature of her sex, prevailed upon him to grant Columbus' request, whereupon, providing his vessels with stores and men out of his own pocket, Columbus got ready, and on a certain day of a certain month, and in a certain year, he set sail from the Holy *Sea* of Rome, and after a long and tempestuous trip, he set foot at last, upon the Plymouth Rock, in the Island of John Fernandez; it was on that occasion that he exclaimed—'Breathes there any man with soul so perfectly dead as never to himself has said, this is my own, my native land!

'Sir, Mr. Columbus did not long survive the hardships of that voyage, and was taken prisoner by the king of the Cannon ball islands, and with all his crew cast into chains and slavery, where he died an ignominous natural death, with his whole crew, leaving not one to tell the tale. Peace to his ashes and their'n.

'Sir, the discovery of this continent was the greatest invention of the year 1492. Fernandez Island was the stepping stone to the settlement of this country, Sir. United States, North and South America, Oregon and Asia, Hindoostan and Belochisten, England and Turkey, France and China, and many others too numerous to mention behold these countries traversed by steamboats, railroads and telegraphs and ask yourself, would these things have been if it hadn't been for Columbus? and your reply would certainly be, 'Certainly not, Sir. If it hadn't been for Columbus General Washington wouldn't have been a man—but suppose he had, what then? What did Washington ever do that was a great benefit to this country?—There is much said about his talents for war.—To be sure he performed several masterly retreats, but what is that an evidence of?—Sir, it is that he was a coward!'

'General Washington a coward?' screamed Foster, the village doctor, in a voice of thunder. 'General Washington a coward? Who so base as dare say it? Look at him at Waterloo, the Cowpens, on the Plains of Marathon, at the Pyramids, at Stillman's defeat, at Bad axe; and, sir, look at him at the battle of New Orleans!'

'General Washington at the battle of New Orleans!' exclaimed a huge backwoodsman, gesticulating violently, 'Mr. Speaker, is there such an ignoramus in the house? Sir, any school-boy knows that the battle of New Orleans was fit before General Washington was born.—Let the gentleman read Putarch's lives, the lives of the Signers of the Declaration of Independence, or let him read Arkwright's history of the Black Hawk War, and he'll find that *General Henry Dodge fit the battle of New Orleans.*

Commerce of the U. S.—A statement of the value of Imports and Exports, for the year ending on the 30th of June last, furnished by the N. Y. Journal of Commerce, shows an increase in the imports of the year, of $32,000,000, and in the amount of exports of $36,000,000, including bullion and specie in both statements. The amount of specie imported and exported is not yet ascertained from any official statement. The California gold received at the several mints within the last nine months, including nearly the whole amount of precious metals imported, amounted to $37,691,000, and in the preceding twelve months to $30,273,000. The amount of specie exported from New York alone in the first six months of the present year, was $19,092,552. The export of specie from New York from Jan. 1, to the 15th inst., amounted to $35,690,000.

Windfall for a Hatter.—Mr. James Miller, who has worked as a journeyman hatter for the last ten years, in Cincinnati, a few days ago received notice from Washington city that the sum of $63,000 was awaiting his orders at the capital—he being heir to an old Mexican indemnity claim to that amount which has recently been allowed by the Commissioners. The good news was entirely unexpected by him.

BY TELEGRAPH.

Schenectady, Nov. 24, 1851.

This afternoon, about 4 1-2 o'clock, the gasometer of the Schenectady gas works exploded and seriously, if not fatally, injured Patrick Donnelly. Mr. John Eaton, superintendent of the works and a laborer, were also somewhat hurt. Owing to some leaks in the Gasometer, the bonnett was taken off early in the morning, for the purpose of allowing the gas to escape, so that they could enter and paint inside. The laborers, while Mr. Eaton was absent, and contrary to his express and often repeated orders, took a lighted candle and were lowering it into the gasometer when it exploded, blowing it and the brick building erected over it to atoms, and throwing the men and rubbish in every direction.—Providentially, Mr. Eaton had just entered the door of the gas-house, having been on business in the city, and therefore escaped with slight injury.

LATER FROM HAVANA.

Charleston, Nov. 23th.

Probable Pardon of Mr. Thrasher.—The brig Gulnare has arrived at this port from Havana, with dates to the 23d inst. She reports that Gen. Concha, the Captain General of Cuba, had indicated his intention of pardoning Mr. Thrasher in a few days, and giving him twenty days to settle his affairs, and then to quit the Island. This has caused great rejoicing among the American residents.

The Queen's birth-day, the 19th inst., was celebrated with great pomp, when the Captain General reviewed the troops.

A Fire occurred this morning, at the corner of George and King streets, Charleston, destroying the following property: J. Brown's Hat and Clothing store loss on stock 5000 dollars. J. Schyre's Clothing store, stock $10,000, building $5,000; Mrs Hogan's Millinery; Valentine Hude's Basket and Fruit store, $2,000; Addison & Conners, Watch-makers, $8,000. The above property belonged to H. H. Brooks, and was insured for $5,000. The residence of David Lopez was also destroyed, loss $3,000; and part of the stock of John Daly, Hatter, $2,000. The Charleston Trust & South Carolina Co., loss about $7,000.

American Prisoners in Mexico.—We yesterday copied an item from the Houston Telegraph, to the effect that the editor had learned from a person who was in Durango some months since, that nine American citizens had been imprisoned in that city more than a year, and that unless the United States Government interfered, they would probably remain in durance many years more. A letter has been shown us, which induces us to believe that one of the prisoners is no other then the notorious Capt. Parker H. French, and that the rest are his accomplices in all sorts of rascalities. This fellow French has been hung within the past year, has been elected Governor of Durango, and we hardly know what not. The following extract from the letter referred to, and which was written some two or three months since by a gentleman residing at the city of Durango to his brother here, will set the matter at rest. The notorious Capt. French has not been executed, but is in prison in this city, with eleven companions, charged with with highway robbery. From all the information I can obtain, French is quite a desperate character. All the interference our Government could make in this matter, would be simply to ask that this man French might be given up by Mexico, to be punished for his swindling transactions on this side of the Rio Grande.—*N. O. Pic. of Nov.* 13.

Naval.—Com. T. A. Dornin has received orders to take command of the sloop-of-war Portsmouth, now fitting out at the Brooklyn Navy yard. Benjamin F. Delano, naval constructor at Pensacola, has been transferred to the Gosport navy yard, to take the place of Samuel Hart, who has been transferred to the navy yard at Pensacola. Mr. Delano has entered upon the duties of his office at the Gosport yard.

Mr. Thrasher. The latest news from this gentleman which we can readily consider authentic is in the following from the N. Y. Times.

In Prison, Havana, Nov. 14, 1851.

To the Editor of the N. Y. Daily Times:

Sir:—In consequence of the thousand false reports that are circulated in regard to myself, I would request you to deny explicitly that there have been found among my papers any letters or documents that compromise any one in any manner whatever, not even myself if I am allowed the advantage of defence.

I refrain from further remark pending my trial.

Respectfully, your obedient servant,

J. S. Thrasher.

We received the forgoing letter yesterday. It shows that on the 14th inst. Mr. Thrasher had not been *garotted.* It shows, however, that he had not then been tried. The *Georgia*, which arrived last Tuesday night, left Havana on the 15th, and brought news that he had been tried, convicted, and sent to a fortress on the coast of Morocco for *eight* years' confinement. Another account says that his trial lasted an hour and a half;—that *he himself was not allowed to be present*;—that two of the Court (which consisted of three) voted to *garrotte* him, and that the Captain General, having two votes, with the third member of the Court changed the sentence to one of long imprisonment. How much of this is true, we have not means of knowing.

Old Lady in a "One Price" Store.—"What's the price of this silk?" inquired a deaf old lady of a young shopman. "Seven shillings," was the reply. "Seventeen shillings!" exclaimed she, "I'll give you thirteen." "Seven shillings, ma'am, is the price of the silk," replied the honest shopman. "Oh, seven shillings," rejoined the lady sharply, "I'll give you five."

BALDNESS CURED. The following is from Sumner F. Barrett, Saratoga Street, East Boston.

East Boston, Feb. 8, 1847.

Mr. William Bogle:—Dear Sir: For several years past, my wife has been troubled with baldness on the crown of the head, about six or seven inches in circumference. After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair; and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regularly, I am convinced that the growth of the hair would have been accelerated. I am, sir,

Yours respectfully,

Sumner F. Barrett.

WAHPENE.

GREY HAIR restored to its original color and prevented from falling off, by the use of H. T. Lovet's celebrated Wahpene, an Indian vegetable preparation, differing from all Hair Dye inasmuch as they only change the hair to a dull imperfect brown or black, frequently destroying the hair itself or rendering it harsh and unhealthy while this does not dye but by invigorating the bulbs of the hair, stimulates a renewed secretion of the natural dye, causing the hair to assume all the brilliancy, softness and color of youth, and renewing it when it has fallen off or become thin. It has always secured for itself a perfectly unparalled sale in Newport and elsewhere, by its intrinsic merit. A warrantee on every bottle! that if it does not accomplish all that it assumes to be the money will be returned.

Prof. A. C. Barry's Tricopherous, or Medicated Compound.

THE efficiency of this justly celebrated embrocation for invigorating, beautifying and imparting a glossand silken softness to the hair, is now so widely known and acknowledged, that it has gained by its merit a reputation which is not for a day, but for all time. It is the province of science to subdue and control those physical evils which refined civilization has brought in its train; for so long as warm rooms and tight hats with the combined agency of other influences exist, will thousands of unhappy victims be troubled with bald heads and grey hairs, to say nothing of the various cutaneous diseases to which the head is subjected. It was to relieve these evils that Professor Barry introduced his invaluable remedy, and among the thousand and one who have been his competitors, he now stands alone on that pedestal of success, hewn out of Barry's Tricopherous, and sustained by the favor and universal patronage of a discerning and intelligent public.—For restoring the hair to its original growth, or preventing it from falling out, this compound has been pronounced by all medical men to be a sure remedy. For eradicating scurf, dandruff, and curing diseases of the skin, glands, muscles, stings and bruises, the Tricopherous will always be found a safe, speedy, and unfailing cure; and so long as

"Fair tresses man's imperial race ensnare,
And beauty draws us with a single hair,"

will Barry's Tricopherous be essential to the toilet of every lady and gentleman who desire to give a soft, glossy and luxurians appearance to the natural drapery of reason's throne. Sold in large bottles, price 25 cents, at the principal office, No. 137 Broadway, New York: and sold by the principal merchants and druggists throughout the United States and Canadas, Mexico, West Indies, Great Britain, France, and by R. J. TAYLOR, Newport, and J. BALCH & SON, Providence.

WAHPENE.

EVERY person who has used this invaluable article for restoring Grey Hair to its original color, or for thickening the hair when it has become thin, and for preventing Baldness, is willing to certify to its good effects. It is not a Dye, as it changes the grey hair to its original color whether it was black, brown or red.

The action of the Wahpene is to close the pores of the skin around the hair, and by this means the coloring matter instead of extending from the skin and being wasted, upon the surface, returns to its natural channels between the scales or barbs of the hair; therefore there is no hesitation in asserting that by a judicious application of this preparation, a person never will become grey or bald; for sale by

C. G. C. HAZARD, authorized Wholesale and Retail Agent, next North Post Office.

The main design of this company is to enable good and honest persons of small means, to make provision while in health, by a trifling outlay, against the aggravated sufferings that so often by invaded sick bed, in seasons of pecuniary privation and of inability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the past one generation, by the establishment, in Europe, of similar provident institutions; and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all who avail of its contemplated—and more especially to those who toil daily for their daily bread, and to which any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small annual investment, may relieve themselves from the hazard of incurring heavy burdens, inflicted involuntarily by those who might otherwise become dependent upon them for essential care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly earn all the benefits which they may demand, as a matter of just and legal right; and, if it so please Providence that they escape the affliction against which they have successfully provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at any office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

A CARD.

DOCT. F. GOURAUD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France,

SURGEON OCULIST,

DENTIST,

AND PROFESSOR OF CHEMISTRY; has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years past; that he has begun anew his former practice of Medicine and Surgery, at his Dwelling, No. 19 Bridge Street; where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warrants given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust, either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronic, inflammatories or accidentals, which afflict the Eyes and the Sight, either in young subjects or older ones: the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABICS SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the furthest, to one minute's anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to induce a Strabic, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabism, in the city of New York, upon 24 Strabics subjects, with an indisputable success, after having operated upon upwards of 300 in France.

Just received direct from the Manufacturer, 150 Boxes of this superior brand Cheese, Warranted to stand any climate, and improve by age. HOT AIR COOKING RANGE.

IN presenting this Range to the public, the subscriber would call attention to its merits. He has been well convinced from his own observations that the public are in want of a Range with such improvements as will render it more perfect for all purposes of domestic utility and economy, than any now in the market. In the article which he now offers to the public for examination, he has (if he can place any reliance upon the assurance of experienced dealers in Ranges and Stoves, his customers and his own experience and observations) been successfully beyond his most sanguine expectations. The Oven is so constructed as to secure the certainty of thorough baking the bottom of all articles proper to be cooked in an oven. It is unnecessary to say to those who have used ranges, that no previous pattern has been free from defect in this particular.

All parts of this Range is double the usual thickness.

It has been pronounced by competent judges, the most beautiful and perfect in its appearance, of any Cooking Range of this country, with some advantages over many ranges that are made. I would call your attention

1st, To its general beauty and great strength of castings. Also, the quality of iron and the care and skill with which they are mounted. Also, notice the top which is so constructed as to prevent the least possible chance of breaking or burning out.

2d, The form of the fire chamber—a cylinder lined with soap-stone, or fire-brick, and known to be the best form of fire chamber in which to burn coal.

3d, Notice the front of the range closes tight, with a register in the ash-door, to give draft, which when closed makes the range perfectly air tight. Also, a new arrangement for dropping the grate from the outside, so that no dust can escape in the room.

4th, The simplicity of the arrangement; it having but one Damper, which manages the whole. Also, the convenience for cleaning the flues, and a convenient place to put the coal scuttle and a very large oven, of capacity enough to bake twelve pies. Also, a bath boiler, which can be heated by a side or back flue or a water back, and a new and improved hot-air fixture which will heat a room from 12 to fifteen feet square, with the same fire that is used in cooking. There are five sizes of these Ranges, all of them can be set with double ovens either No. 1, 2, 3 or 4, at the option of the purchaser.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.

Safety—Stability—Economy.

THIS long established and well known company having organised a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexatious contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 40, 45, 50, 55, or 60, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

JOHN H. SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. The proprietor of these truly valuable Medicines might fill a volume with Certificates and Testimonials in favor of his articles; but, considering such puffs wholly useless, since they are so readily manufactured, and made use of to such an extent to palm off some useless trash upon the public, I shall, therefore, state at once, the various diseases that can be speedily cured by these Invaluable Horse Renovating Powders, viz:—Glanders, Hidebound, and Horse Distemper. It also carries off all gross humors, and purifies the blood. It is also a safe and certain cure for the HEAVES; it will also cleanse, at once, the stomach and maw from bots, worms, &c., and again restore the stomach and bowels to healthy action.

SMITH'S RENOVATING OINTMENT is an invaluable remedy for horses, in the cure of the following diseases: Fresh Wounds, Galls of all kinds, Sprains, Bruises, Ringbones, Poll Evil, Wind Galls, Sprains, Sweeny, Fistula, Strains, Lameness, Foundered Feet, Cracks, and Scratches.

The above articles are to be had in most of the Cities and principal Villages throughout the United States, and the Canadas.

Price, 25 cents per box for the Ointment; 50 cents for the Horse Renovating Powders.

DALLEY'S MAGICAL PAIN EXTRACTOR.

The Original and only genuine—in a new envelope and much enlarged boxes.

THIS only never failing and sovereign remedy for burns, scalds, piles, salt rheum, cuts, wounds, bruises, chilblains, swellings, old inveterate sores, inflammatory rheumatism, sore and inflamed eyes, and all cutaneous and inflammatory diseases, is extensively counterfeited in the old wrapper!! Avoid it as you would poison—for, to use it, is as dangerous!

I refer to my printed Pamphlets for testimonials of cures performed, and for the truth of every word of which I hold myself responsible. Were I to embody all the testimonials I have received, it would fill a quarto volume of 1000 pages.

A CHALLENGE TO THE WORLD!

I will forfeit $10,000 to be paid to any charitable institution, or institutions, if ANY or ALL other articles that flood the market, as Salves, Liquids, or so called Exterminators, Extractors, Killers, (an appropriate name for some,) can perform such a cure, in all its particulars, as is related in my circulars, as the

HAGUE STREET EXPLOSION CASE!!!

And I will pay to any party $1,000 if he can prove that there is any thing in that statement not STRICTLY TRUE! I deem it useless to say more in reference to the

GENUINE DALLEY SALVE!

CAUTION!

void fraud, and you gain near 50 per cent.—Shun the poisonous counterfeits in the old wrapper, and buy Dalley's Extractor only in the new envelope and the large boxes.

MARK—The emblems on the new wrapper—Triangle, Serpent, Sun, Dove, Lion and Eagle.

MIND—The new wrapper—the large boxes—and the genuine article.

THE TEST.

DALLEY'S GENUINE SALVE, if applied in any case of Burns, Scalds, or Inflammation, will afford almost instantaneous relief! It cools when applied, checks all inflammation instantly, and quickly reduces it. Its effects are so soothing, that in cases of the severest burns and scalds, [*See Hague Street Explosion Case,*] and where the sufferer is in the most excruciating pain, it will entirely ease him in a few minutes, so that in about a quarter of an hour from its application, he will enjoy sleep and repose.

The Counterfeit Salves irritate when applied, and increase the pain and inflammation.

DALLEY'S ANIMAL GALVANIC, a certain, quick, and never-failing remedy for the cure of poll evil, sores, humors, bruises, strains, galls, &c. See the new printed Circulars.

METALLIC BURIAL CASES.

The subscriber has purchased the right to sell the Patent Metallic Burial Cases for the Island of Rhode Island; and he has just recieved a fine supply of the different sizes and patterns. These Cases will not preserve remains for all future time without some decay; but we do assert that remains can be kept in them for weeks without decomposition being observable, or without any offensive odor escaping. In grounds which are wet, they will be found doubly useful, and will answer all the purposes of vaults—which are so often made to shut out the water. If it is necessary at any time, even fifty years after interment, to remove remains, it can be done without any difficulty—for the Cases themselves will last as long as time itself.
